Epi Center Medspa

Cosmetic Medical Spa Services

450 Sutter St., Ste. 1336

San Francisco

(415) 362-4754, www.skinrejuv.com

Epi Center was the first in the country to combine the concept of spa pampering with medical cosmetic procedures.

Founded in 1998 by cosmetic dermatology pioneer Patrick Bitter, Sr., MD, Epi Center offers proprietary procedures, including PhotoFacial Elite (IPL PhotoRejuvenation), laser hair removal, Botox®, Restylane®, permanent make-up, and medical-grade clinical facials. With the addition of medical director Scott W. Mosser, MD, the center has added plastic surgery. "I'm proud to be a part of this operation," says Dr. Mosser, who maintains a private practice in the same building. "We have an excellent group of experienced and dedicated practitioners." Pictured: Dr. Bitter, Sr.; Jennifer Schaefer-Fick, RN, BSN; and Dr. Mosser.
